## **PRESS RELEASE**

### **Sub: Weather Services from IMD via Mobile App**

India Meteorological Department (IMD) has taken various initiatives in recent years for improvement in dissemination of weather forecast and warning services based on latest tools and technologies. To further enhance this initiative, IMD has introduced three Mobile APPs, MAUSAM, Meghdoot, and Damini. Kindly download and popularize the Apps.

**MAUSAM** Mobile App of the India Meteorological Department (IMD), Ministry of Earth Sciences (MoES), Government of India is to provide seamless and user-friendly access to weather products available on <https://mausam.imd.gov.in/>. Users can access observed weather, forecasts, and radar images and be proactively warned of impending weather events

**Meghdoot** mobile app is to bring high resolution weather forecast based agro advisories to farmers in vernacular. It allows farmers and interested users to access these advisories along with observed weather and weather forecast in a user friendly manner.

**Damini** Lightning Alert app is for giving warning to the user about the lightning on the basis of user location. Lightning is shown on the map on the basis of 5 min lightning, 10 min lightning and 15 min lightning. User can also register for the application.
